If you have a mobile phone or other android device, please use the TopCharts Mobile app instead. If you want to help us improve this app, please give us feedback. Thanks! *** NOTE: TopCharts Mobile has some of the same features as the TopCharts app. There is a version of TopCharts for Android phones and tablets. Download TopCharts Mobile for free on Google Play. Enjoy using TopCharts? Please give us a rating and tell your friends about us. Thank you! +++ Note to Developers: TopCharts is now offered on Google Play. Google has implemented an app size limit of 4GB per app. If you upload the same APK file that already exists in the Play store, your update will fail. It is

recommended that you request a new version number in your first app update and create a new upload file. You can also re-upload your app to the Play store with an app size of 4GB or less. A group of ios users have been complaining that they've been having problem installing and uninstalling the latest version. We can only assume that since they're so far from the Play Store that it may take them
