HyperMotion Technology allows you to use true player motion and animations like never before, making for total realism and a more immersive soccer experience. Make use of the ball, maintain possession, and beat your opponent with accurate passes with all new control of your players' jump, sprint and drift. Take control of the center of attention – your squad. RUMBLE THE BALL INTO THE BACK OF YOUR NET!

Control the center of the pitch. New rumble controls affect ball movement when shot at various angles. Utilize RUMBLE controls to set up scoring chances and control possession in critical moments. The ability to drift the ball into the back of the net lets

you fly past your opponent to dominate the midfield. Boost the ball into space and collect the ball in the last few seconds in the final third. Striker can benefit from movement controls similar to goalkeepers. Use your movement and balance controls to surprise the defence with a quick shot on goal. Tackle animations have been reinvented, making it easier to execute a smooth tackle for the players. When facing off with an opponent, strike with less resistance. The power of the tackle is controlled by the player who makes the tackle. Player skills are also affected by "player personality", creating a closer interaction with players, and each in their own way. When creating your player,

choose your skills and traits and you will be able to create your own soccer superstar. Striker Showcasing abilities and traits, like speed, dribbling, stamina, power, quickness, control, and more. Players will compete using FIFA Points and specialized options to get the most out of each game. The 2018 FIFA World Cup Russia™ will take place in 12 host cities across nine venues from 14 June to 15 July, and feature 32 teams. Co-developed by EA Canada and Visual Concepts, Fifa 22 Free Download will be available in stores in North America and Europe on September 28 for PlayStation 4, Xbox One, PC and Nintendo Switch. FIFA 21 and FIFA 19 are available on PlayStation 4, Xbox

Fifa 22 Features Key:

- FIFA 22 introduces “HyperMotion Technology,” which uses motion capture data collected from real-life players playing a complete, high-intensity football match while wearing motion capture suits. This captures all the skills, tactics, and direction of play to animate those actions in-game.
- FIFA 22 introduces the all-new You Controls 2.0 system, which sets new gameplay expectations and enhances every facet of FIFA gameplay. Now, you’ll play the ball with your feet, not the controller. You’ll use the new all-new Third-Person View to respond at every moment of every move, as if you’re really there. And you’ll fight dynamically responsive matches that are defined by your actions, not your controller.
- FIFA Ultimate Team, your strategy and tactics in Seasons and Leagues, your tactics, as well as your player connections and friend networks are in lock step with the live gameplay of the season. The depth of connectivity means that when tactics change in the game, your team’s tactics change as well.
- With the brand new TouchPad™, you navigate, explore, and find teams, kits, stadiums and more by simply tapping the screen. You can even watch replays or review footage on the touch pad.
- FIFA 22 introduces Be A Pro Mode, which allows you to become the player you admire and create your own PS4™ avatar. You’ll

experience all the features and experiences of the PES series, including all-new Player Movements, players' authentic AI tendencies and player styles, all leading to a challenging and fun gameplay experience.

- Career Mode, live out your dreams as both a manager and a player in FIFA 22. Create the newest club in FIFA, design your kits, style your stadium, and choose whether to compete with the elite or rise up from the lower divisions as you manage your club to glory.

[Updated]

Having one of the most celebrated sporting properties in the world, FIFA is a fixture on the gaming scene. This award winning football franchise is the world's most widely enjoyed football game, enjoyed by millions of sports fans in over 150 countries. The most recent instalment of FIFA was released in 2013 and was the first FIFA game to feature the most popular and realistic football gameplay on home consoles. Just like with real football, gamers will be able to use the next instalment of FIFA to show off their skills in epic FIFA Ultimate Team™ games. FIFA Ultimate Team™ has been one of the biggest and most exciting

aspects of FIFA since day one. With more than 2.5 million items, players can construct the ultimate team. Grab hold of the world's top players with FUT Packs, new and classic transfers and kits, and plenty of inspired player cards. FIFA Ultimate Team™ is available as a standalone game, or can be tied in to the FIFA Ultimate Team™ online features.

Gameplay System In a game where the player takes control of a football team, EA SPORTS™ has embedded a number of fundamental gameplay innovations to make FIFA feel more authentic than ever.

Dynamic Player Control FIFA 22 introduces an all-new system to control players: Dynamic Player Control. Players intuitively

control every movement on the pitch, making total football a reality. Every single player, every time, is controlled perfectly. Each passing, shooting and dribbling action is clearly visible on the pitch, an authentic experience that clearly shows every player's movement and the influence they have on the game. New Passing Direction FIFA 22 makes a number of changes to the positioning and movement that happens when passing. This leads to players following the route that they are passed. This creates a greater level of skill in the game as players can now step off the ball in certain situations and maintain the ball possession. New Dribbling Control FIFA 22 introduces a

new Dribbling Control system that makes everything feel more natural. More than ten years in the making, Dribbling Control is the result of extensive research and includes over 400 new effects, including dodging, losing possession, and dribbling diagonally when the attacker doesn't have the ball. New Collisions The anticipation and pressure that comes with a new season brings with it plenty of new challenges for players. The physics engine of FIFA 22 delivers a more realistic and reactive collision
